Ms. Kim Young
F&E Check Protector
POBox 670289
Northfield, OH 44067

Dear Kim,

Thank you for making the process of programming changes so easy! We had the Wycom Premier check signer when I came to the Library, but I needed to have the signature changed upon my arrival. After the programming was complete, it was very easy to download the signature change in about a minute. Even though this was the first time I actually had any chance to work with the system and equipment, the change went very well with the instructions that were provided to me. It was an easy and smooth process.

Our office team really likes this solution. While we currently use it only to sign our checks, we are looking at adding the capability to do full-MICR check printing and purchase orders so that we can save on our pre-printed check and form costs. It will also streamline the process even further.

It is a pleasure having F&E Check Protector as a valued supplier/partner to the Akron-Summit County Public Library.

Sincerely,

Sharon E. McGuire
Clerk-Treasurer
