Dear Ms. Young:

I wanted to take this opportunity to express my appreciation to you for recommending the city's purchase of the Wycom check printing system that we recently installed as a part of our new software implementation. You did a truly fine job of explaining the different options available to the city, which enabled us to maximize the cost of investing in your product.

During the implementation phase, you and Brad provided valuable technical support to the Finance Department staff. I would not hesitate to recommend this product to other public entities.

Sincerely,

Robert G. Tribby
