Dear Brad,

When F & E stopped in to introduce their products and services, we had been wanting to investigate changing from our dot matrix printer over to laser printing. They listened to our requirements, determined our needs and recommended a simple turn-key solution. The Wycom system was proposed because of its simplicity, reliability and unconditional satisfaction guarantee. We are now saving a considerable amount of time with the printing of our payroll and vendor checks.

Since F & E Check Pros proved themselves with our check printing, we had them develop custom programs and other interfaces for us. We consistently find you and your team to be knowledgeable, supportive and reliable in simplifying our daily work tasks.

By all means, please use us as a reference.

Sincerely,
City of Solon
